

European Sale-Leasebacks

In a sale-leaseback, a company sells its real estate to an investor like W. P. Carey for cash and simultaneously enters into a long-term lease. In doing so, the company extracts 100% of the property’s value and converts an otherwise illiquid asset into working capital to grow its business, while maintaining full operational control.

Sale-Leaseback Benefits

Sale-leasebacks enable the seller/tenant to:

- Unlock the full market value of otherwise illiquid real estate assets
- Reinvest the cash realized from the sale-leaseback into its core business operations and growth objectives, while retaining full operational control of the facility
- Benefit from 100% deductibility of rental payments rather than being subject to interest limitations for traditional debt as defined by tax laws

About W. P. Carey

W. P. Carey Inc. (NYSE: WPC), one of today’s largest diversified net lease REITs, provides long-term sale-leaseback and build-to-suit capital solutions primarily for companies in the U.S. and Northern and Western Europe. We are well positioned with the capital and experience needed to maximize efficiency and ensure certainty of close on complex, single and multi-country deals that meet our investment criteria.
